**Catarrhal Deafness Cannot be Cured.**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever. Many cases of deafness are caused by Catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surface of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that can not be cured by Hall's Catarrh Cure. Circulars free. All Druggists 75c.

Children smile when they take

**FOLEY'S HONEY-TAR**

1st. It tastes good.  
2nd. It makes them feel good.  
3rd. It will turn a distressed, fretful child into a happily smiling one.  
Because it is just what children ought to have for feverish colds, coughs, croup, "snuffles" and heavy, wheezy breathing. It puts a healing, soothing, coating on a feverish, inflamed, tickling throat, and it stops coughs quickly. It is good for croup, too.  
It contains no morphine, chloroform, or other drug that you would not like to give to young children, and it is just as effective for grown-ups.

**Keep Your War Stamp Pledge**

Dubois County must not be one of the slack counties on the War Stamp quota. Every pledge in the county must be redeemed if we expect to "go over the top." Have you redeemed your pledge? If not, why not this week? Have you purchased \$500 or less of stamps? If not, why not double that purchase? We Can and Must raise our quota. The honor of our county is at stake. Will you help save it? Dubois County War Savings Com.

**Stomach Trouble.**

"Before I used Chamberlain's Tablets I doctored a great deal for stomach trouble and felt nervous and tired all the time. These Tablets helped me from the first and inside of a week's time I had improved in every way," writes Mrs. L. A. Drinkard, Jefferson City, Mo.

**Few Escape.**

There are few indeed who escape having at least one cold during the winter months, and they are fortunate who have but one and get through it quickly and without any serious consequences. Take Chamberlain's Cough Remedy and observe the directions with each bottle, and you are likely to be one of the fortunate ones. The worth and merit of this remedy has been fully proven. There are many families who have always used it for years when troubled with a cough or cold, and with the very best results.

**To the Public.**

I have employed John Buechlein, an expert shoemaker, in my shoe repairing department, and am now ready to make your shoes as good as new. I thank you for the patronage you have given me in the past years and solicit your continued patronage. Satisfaction guaranteed. JACOB KUNTZ, Jasper Ind.

**Mrs. Hiley's Letter.**

In a recent letter Mrs. D. W. Hiley of Litchfield, Ill. says, "I have used Chamberlain's Tablets for disorders of the stomach and as a laxative and have found them a quick and sure relief." If you are troubled with indigestion or constipation these tablets will do you good.

**Card of Thanks.**

We desire to tender our sincere thanks to all of our neighbors and friends for their kindly assistance and sympathy during the late illness and death of our beloved wife and mother. In this sad hour we cannot express the gratitude we feel for their many favors. Also to the many friends from out of town who were in attendance at the funeral. With thanks for each one we wish them all well. JOHN M. SCHMIDT and family.

**Mrs. Turner Studying Baby Hygiene**

**She Asks the Physician.**

"My dear Mrs. Turner" said the family physician, "I can only repeat what I have said so many times—that a baby must be fed with the child properly assimilated its food, but equally important, that the waste products are properly eliminated. Infant—or Child—hygiene plays an immense part in this day. The proper feeding of children is to-day an exact science and it has brought with it the knowledge of how to keep the child's alimentary tract in the proper condition. Have you noticed how many physicians now specialize in children's diseases? Those men have at their command all the treatises on the maladies of infancy and childhood. Naturally they have the advantage over the general practitioner. But, do you think that the specialist has more success in treating children than the physician who brought them into the world; who day in and day out sees them, watches them and notices all their little individual peculiarities? The Specialist comes as an outsider and has to learn of these things. The family physician knows them."

"One of the best known physicians in this country puts the matter of sanitation of the alimentary canal into a terse sentence—'Clean out, clean up and keep clean.' Surely what is true as to children. The grown-ups can think for themselves. But the baby? Ah! you get the point? Food that may suit one child may be absolutely unfit for another, the ice-cream cone, the tempting watermelon, the over to be desired green apple, cause the woe, which may be soothed by remedies that cannot be given to the infant or small child, such as Castor Oil, a most nauseating old fashioned remedy. For years and years, in my own family as well as in outside practice I give Fletcher's Castoria and I know of scores of other physicians doing likewise. You ask why? Well I have had nearly thirty years experience with it, that is why. Experience teaches. You, Mrs. Turner, are still young and have only your first baby to worry over and because his little stomach is out of kilter you are scared. Now, just do as I tell you. Give him Fletcher's Castoria as directed, and you will find that your boy will be very comfy."

"But Doctor," broke in Mrs. Turner, "are you sure there's nothing injurious in Fletcher's Castoria?" "Why my dear Mrs. Turner right on the wrapper of every bottle you will find the formula. And since you are of such an inquiring turn of mind, if you will some day come over to my office I will read to you what the text book says about those things. I put a box of it in to you in everyday life."

The doctor could not convince Mrs. Turner that Fletcher's Castoria was the remedy for her baby to keep in the house and any other mother who takes the trouble to ask her physician will receive the same advice.—Adv.

**WHEAT-CORN YEAST BREAD.**

Wheat-corn bread is more nutritious than bread baked with wheat flour alone. Thousands of American families today are using this mixed flour bread, and in so doing are enabling America to provide more wheat flour for the allies. Here's a tested recipe for this bread: Take one and a half cups of milk, water or a mixture of the two; one-half cake compressed yeast, one and a half teaspoons salt, one tablespoon sugar, one tablespoon of fat if desired, one cup cornmeal and two cups wheat flour.

Put one and a half cups of water, the cornmeal, salt, sugar and fat (if used) into a double boiler and cook twenty minutes. The water is sufficient only to soften the meal a little. Allow the meal to cool to about the temperature of the room and add the flour and yeast mixed with the rest of the water. Knead, thoroughly, make into loaf, place in pan of standard size, allow to rise until nearly fills the pan and bake 45 or 50 minutes. It is hardly practicable to use a greater percentage of cornmeal than this even in emergencies, for bread so made differs very little from baked mush. Less cornmeal can be used and in such a case the general method given above may be followed.

It is possible to make a yeast raised corn bread without first cooking the cornmeal. In this case not more than one cupful of meal should be used to four cupfuls of flour. In other respects the bread is mixed and baked as in the above recipe.

**HAVE REASON TO BE PROUD**

Achievements of the American People  
Afford View of Unbroken  
Line of Progress.

During the past 25 years 100,000 miles of railroads have been built, requiring an expenditure of not less than \$200,000,000 for labor and material. We are both producers and consumers. While our population is only a little over five per cent. of the population of the world, we produce 90 per cent. of the wheat, 40 per cent. of the iron and steel, 50 per cent. of the copper, 70 per cent. of the cotton and 80 per cent. of the corn of the world. Furthermore, with inconceivable rapidity, machinery has taken the place of human toil, and incidentally millions of slaves have been set free. The same triumphant progress has unvaryingly characterized every phase of human endeavor on the American continent. Civil and religious liberty is a natural condition as well as an attitude of mind. The story of agriculture, of manufacturing, of mining, of the arts and sciences, demonstrates the unbroken progress and uplift of the whole people. Finally, the health and well-being of the toiling masses have become, with constantly increasing earnestness of endeavor, the individual and collective purpose of the nation. And above all, the democratic idea, through good and evil report, has encouraged the personal work and character of the individual citizen. It has always believed that competition which encourages skill should remain paramount. It has always gloried in this personal competitive type as the ideal and preserver of democratic traditions.—James O. Fagan, in the Atlantic.

**Depletion of a 100,000 Barrels of Oil.**

Now that the greatest war in all history has been fought to a successful close the question naturally arises as to what effect peace will have upon securities in general, and particularly what stocks will be favorably influenced by the rapidly changing conditions.

**BOSTON-KENTUCKY OIL COMPANY**

with its immense acreage in Kentucky, comprising 1350 acres in Rowan County, and 900 acres in Clay County—all bought and paid for—and all carefully selected and potentially productive territory presents

**An Opportunity For You**

to acquire an interest in proportion to your investment which should return you handsome profits and in a Company where your interest carries what we believe to be a safe investment as well as possessing remarkable speculative possibilities. Regarding the oil situation after the war, it should be understood that there is at present

**A Depletion of 100,000 Barrels of Oil**

per day and 3,000 barrels of gasoline per day, as oil and gasoline are being used in these amounts in excess of the present production and manufacture. It is true that the oil and gasoline now utilized for war machines will not be required for such purposes after the close of the war, although there is the necessity for motor transports from France in bringing the army, supplies and equipment to points of shipment to home countries. Furthermore, the navy is likely to be continued at its full strength in ships and men for perhaps two years after peace is signed. The building of merchant ships, however, will not cease with the signing of peace. The present tonnage of merchant ships is less than it was in 1914 where one ship is needed now

**Three Will Soon Be Needed**

to meet the needs of the world's commerce, in peace. Practically all of the new ships built since the beginning of the war are oil burning, and it is stated by the big, reliable business men engaged in the oil industry, that the requirements of the world's markets will mean the need of oil and its products in constantly increasing amounts. With reference to the developments in Kentucky we are pleased to say that at the close of October, 580 wells were in process of drilling, as against 548 at the end of September. During the month of October 218 new commercial oil wells and 14 new gas wells were successfully completed, making a daily average production of 5,653 barrels of crude petroleum. In order that you may take advantage of the present offer of Boston-Kentucky Oil Company treasury shares at FIFTEEN CENTS per share, it will be necessary that your order or reservation be sent us promptly, as this allotment is moving rapidly and the next allotment will be offered at TWENTY CENTS per share. Bear in mind that our acreage is unusually large and our capitalization unusually small. Address all communications to
